

Hello! to our fellow craftacular families,

GOOD NEWS! The class will carry on! Thank you for responding so speedily last week to our query.

We hope you are enjoying a peaceful and restful summer despite the pandemic. Mrs. Soutsos and I would like to send you a brief overview of what to look forward to this fall. We have both enjoyed planning the syllabus and we will be working on the samples during the next few weeks.

For the fall term the class will explore working with paper and wood crafting which includes various types of printing, book binding, stamp making amongst other things. Winter will include some creative projects using a thread and needle. Making plant fossils will be mixed in with spring term with fiber crafting consisting of weaving, dyeing and learning to knit some simple, useful projects.

Due to the new schedule we will be sending home some projects as "homework" with the intention of completing each project or the assigned portion of the project and bringing it back the next week. We hope to find a good and workable rhythm for everyone.

With the school's permission we might be able to host a bazaar for kids to sell their wares in the spring. This will all depend on the state of affairs with world and our school but we are hopeful.

If you have any questions please do not hesitate to contact Kathleen or myself via email.

Thank you and we look forward to next month!

Marina Bise and Kathleen Soutsos
